# Part X - FASB ASC 740 Footnote (continued)

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Organization and recognize a tax liability (or asset) if the Organization has taken an uncertain position that more likely than not would not be substantiated upon examination by the IRS. Management has analyzed the tax positions taken by the Organization and has concluded that as of September 30th, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Organization is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods prior to 2016. U.S. state jurisdictions have statutes of limitations that generally range from three to five years. Currently, no audits for any tax periods are in progress.
